

KAITLYN GREVE

SOFTWARE ENGINEER

616-648-7340 / kgreve14@gmail.com / kaitlyngreve.com
Sunnyvale, CA

PROFILE

Full stack software engineer passionate about crafting thoughtful web experiences. I focus on frontend development and user interface design, bringing together clean design principles with effective technical solutions. I'm especially passionate about animations and motion design, continuously expanding my expertise in these areas. My primary toolkit includes TypeScript, React, Remix, and design system integration (Tailwind, ShadCN). I'm driven by continuous learning and creating technology that makes a positive impact on users' lives.

EXPERIENCE

CO-FOUNDER & SOFTWARE ENGINEER – Apr 2023 – Current

Ranger / Sunnyvale, CA

- Started and built Ranger with my husband to create an approachable, fear-free budgeting web app
- Architected and built the platform using React, Remix, and TypeScript, with Plaid integration for bank connectivity
- Implemented real-time transaction processing system
- Designed and implemented a fully responsive UI with a seamless desktop & mobile experience

WEB DEVELOPMENT INTERN – Apr 2023 – July 2023

Emberly / Remote

- Assisted with front-end tasks including design system and component updates
- Implemented design specifications for a variety of client-facing product features
- Shadowed developers during project workflows
- Learned professional development practices through code reviews and shared debugging sessions

INDEPENDENT HAIR STYLIST – Feb 2021 – Mar 2022

Manic Muse Salon / Grand Rapids, MI

- Worked independently, communicating with and caring for my clients
- Held consultations with each client - taking into account both the clients desires and my professional input
- Built and implemented social media marketing campaign to build and maintain clientele

COMMISSION HAIR STYLIST – June 2018 – Jan 2021

Echo Salon / Grand Rapids, MI

- Worked with a team to create wonderful guest experience, and deliver desired results for each client
- Organized events for community members, and taught take-home skills and tools
- Taught industry specific skill classes to other stylists and team members

EDUCATION

FULL STACK SOFTWARE ENGINEER CERTIFICATE – July 2022

Flatiron School

- Full stack software engineering program
- JavaScript, React, Ruby, and Ruby on Rails

COSMETOLOGY LICENSE AND TRADE CERTIFICATE – May 2018
